A BIT OF TOURING ADVICE

The mileage contained in this book was secured, with a few exceptions, by inquiring the way from town to town. After considerable motoring experience it has been found that the most practical method of touring is to inquire the direction to the next town enroute. Motorists are advised to follow this rule. Road conditions are constantly changing and by an occasional inquiry, better roads may be found, which would add to the pleasure and comfort of motoring.

INQUIRE THE WAY and YOU WON'T GO ASTRAY

INDEX TO ROUTES

Washington, D. C. To

Route.	Page

Highest Honors

The Cadillac has twice been awarded the Dewar Trophy by the Royal Automobile Club of Great Britain, as the car demonstrating the greatest advance in the industry.

The Cadillac, by reason of its design and its construction, much of which is exclusive and not to be found in any other car, is possessed of those characteristics of long life, serviceability, satisfaction, luxury, economy of operation and minimum depreciation which distinguish it, and which draw a well defined line in motor car classification—Cadillacs and others.

The
New
Baker
Electric
Coupe
and the

New Baker Double Drive Brougham

combine every tried and proven worthy feature that has ever been produced in any Electric, with a chassis that has been fifteen years in process of refinement and perfection. In no other Electric can you get this complete combination of improved features and undisputed structural superiority.

Let Us Supply Everything Necessary To Put the Automobile in Commission

This department is winning new friends every day. We are convincing Automobile Owners that it is to their best interests to buy supplies here. We sell dependable quality goods at low prices.

30 DAYS' TRIAL FREE

D. C. Service Station for the Famous Stromberg Carbureters

Easy to regulate. Gives more mileage to gallon of gasoline. Furnishes best and most effective mixture.

Type G is a new double-jet non-water-jacketed style carbureter, designed especially for "Little Sixes," but can be furnished as a single-jet type, and as such is well adapted to four-cylinder motors.

An entirely new direct-acting float mechanism is featured in this type, together with the glass float chamber, non-leakable metal float, new Stromberg indestructible metal needle valve and extended venturi tube.

Famous Michelin Tires—They have a world-wide reputation. We'll supply you.

B. & R. Automobile Grease—Better than any you've used heretofore. Try it once and you will want it always.

D. C. Sole Agents for the A. V. Shock Absorber

It absorbs the light and heavy shocks by means of a combination of hydro-pneumatic spiral springs. These absorb all the slight jars and shocks which would otherwise be transferred directly to the body of the car. Relieves the mechanism from constant jolting and jarring.

Clocks, Gloves, Flashlights, Lamps, Thermos Bottles, Trunks, Tires
And Hundreds of Other Things Too Numerous to Mention

BARBER & ROSS 11th and G Streets

WHEEL BASE, 116 inches—56-inch tread standard; 60-inch tread extra.

IGNITION—Bosch magneto; variable spark.

TIRES — Goodyear, Diamond or Goodrich, 36 in.x4; safety tread on rear.

EQUIPMENT—Gray & Davis large unit electric starting and lighting.

PAIGE

Model Glenwood "36"—Electric lighting and starting—\$1,275

Model Brunswick "25" 5-passenger—Electric lighting and starting—\$975

T

RY to find out when you buy a motor car what percentage of its price is represented in actual intrinsic value—and what percentage of it goes to pay interest on bond issues, dividends or excessive capitalization and heavy selling expense.

The Paige-Detroit Motor Car Company has no indebtedness of any kind—Its capital is only \$250,000—It has ample resources to enable it to manufacture most economically.

Hence it is able to put a dollar of actual value into the Paige car for every dollar of its selling price.

You will appreciate this at once when you check up the Paige car point by point with cars of higher price.

You will note for instance the bigness and beauty of the Paige design—the strength and character represented in its outward appearance—

You will be delighted with the richness of the finish and the quality of the upholstery.

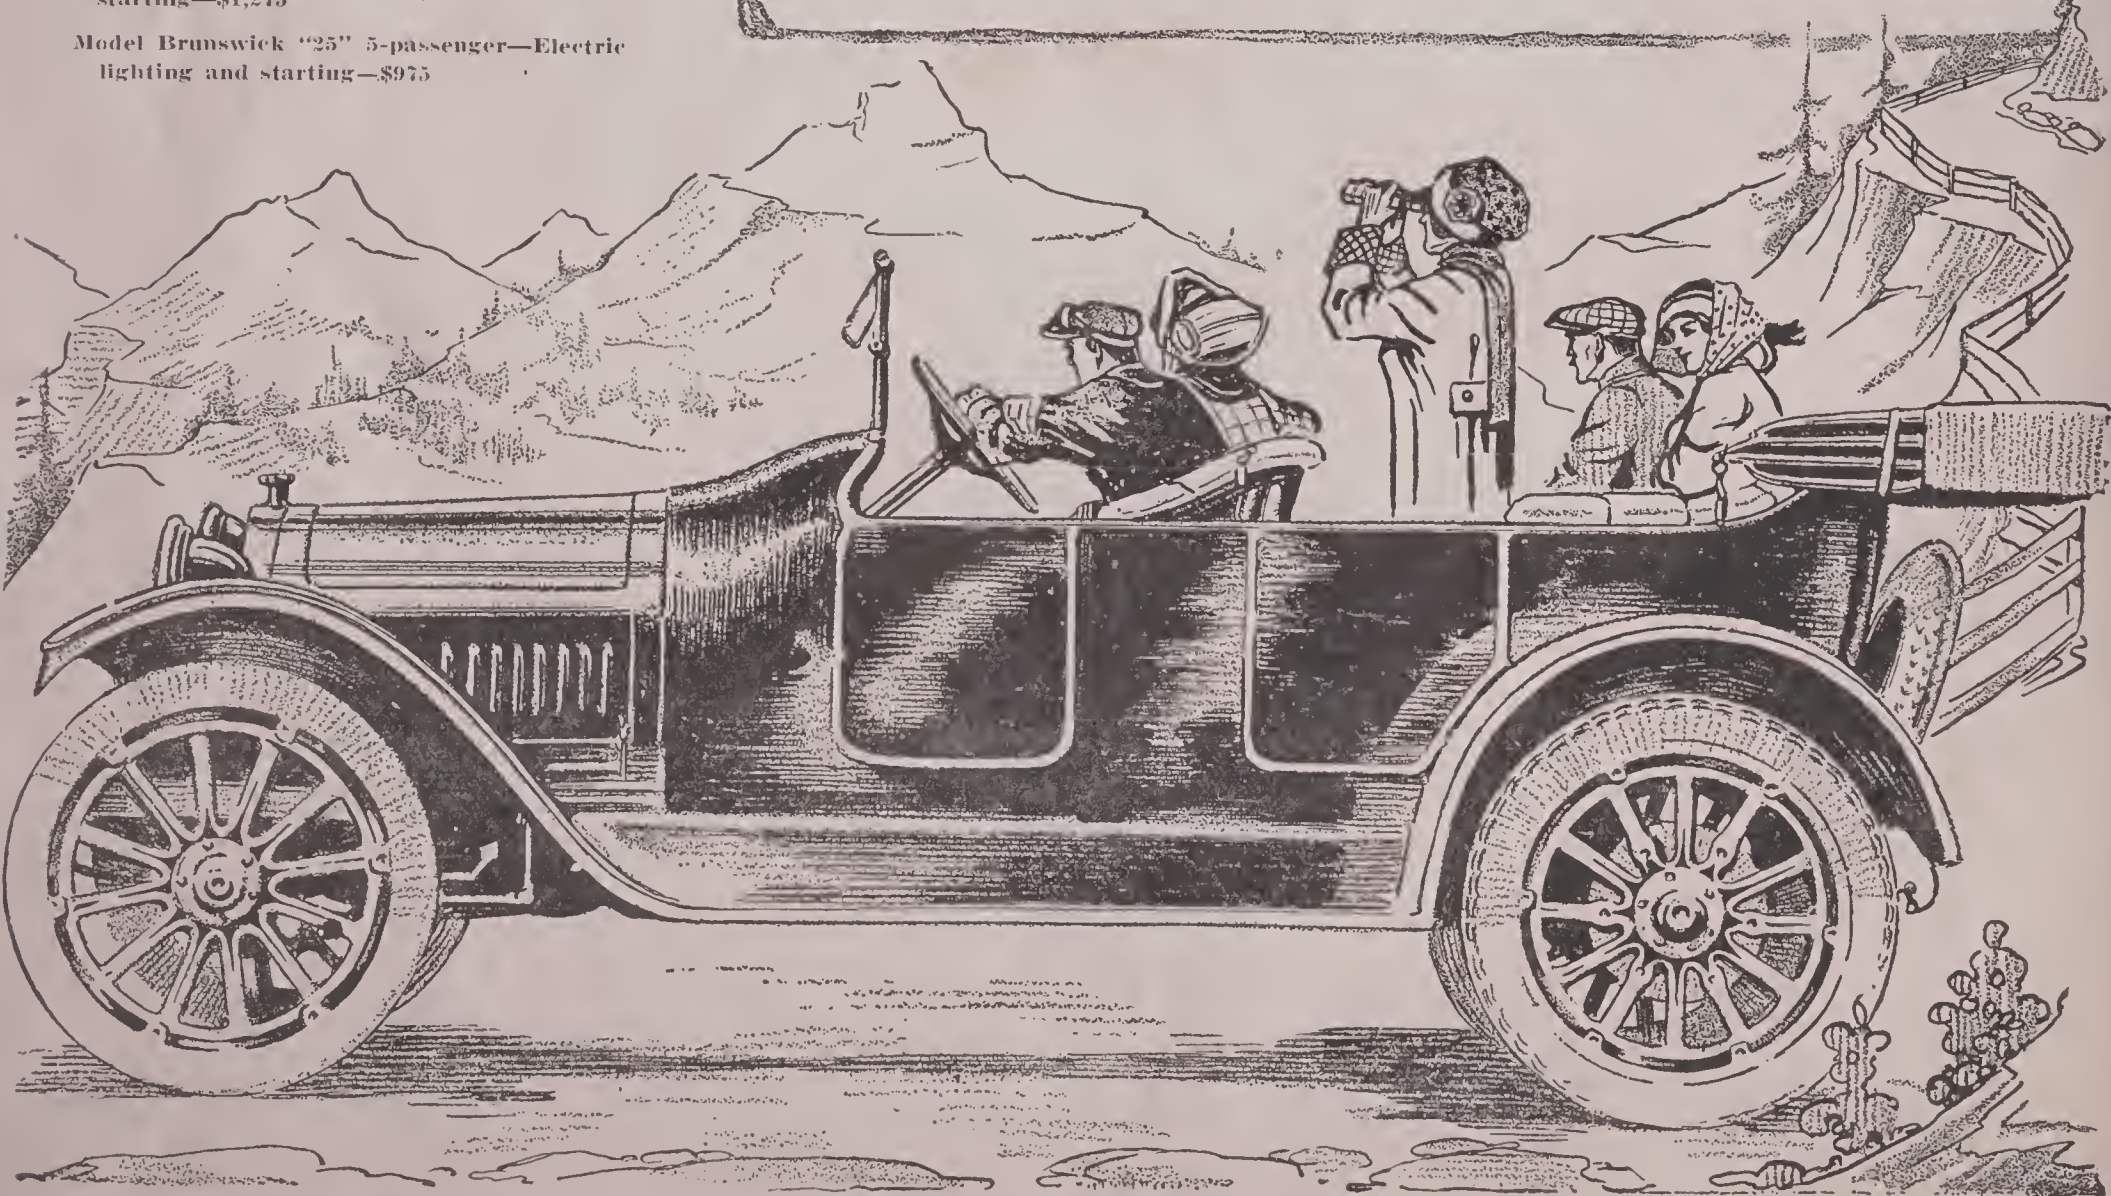

Going deeper into structural features you will find the multiple disc cork insert clutch—the silent chain drive to motor shaft—the large unit electric lighting and starting system—the compact, unit power plant and the extremely high grade equipment—all features you ordinarily expect to find only in cars costing \$2000 or more.

And after you have gone this far you will be fully ready for a demonstration and an order blank.

MILLER-DUDLEY CO.

IS THE

BOSCH SERVICE STATION

THE MILLER-DUDLEY COMPANY desire to state to visiting and resident motorists that we are especially prepared to render expert service at their new establishment, in equipping all motor vehicles with *Bosch Magnets, Bosch Plugs, Etc.* We are ready to repair, overhaul or adjust ignition apparatus of every nature and guarantee satisfaction. Personal supervision, painstaking care and long experience assure the kind of service that satisfies.

The magneto and plugs used in the unprecedented motor test of the *Moline-Knight* motor—two weeks' day and night running without a stop or adjustment—can be fitted to practically any car. You can have the same service and satisfaction at a reasonably small expenditure. Quotations gladly made.

In our several other specialties which we carry, we also announce a Gray-Davis Service Station, unequalled in this section of the country.

Our celebrated Hess-Bright Supply Station being everything that adds to quick service, both for new and reground bearings. These branches of the auto trade should particularly appeal to every owner, and a call by card from you will no doubt open up pleasant business relations. We can save you money, time and patience—three important factors prominent with any auto owner.

We Give You the Buick Word For It

We make claims for the Buick Line, big claims, some of them too big for the average person to believe. The people who do believe are the people who have driven Buicks, are driving Buicks, and will drive Buicks. They know that the statements we make are statements borne out by their own every day experience.

The Buick has more power than other cars because of its overhead valve motor.

It is more economical for the same reason. It burns less gasoline.

It is more durable because everything going into Buick manufacture is built in the Buick shops, enabling us to use better material at less cost than other concerns pay for goods of inferior grade. Our rigid system of inspection reduces the chance of slipshod work to a minimum. This inspection costs a million but it saves a million more.

You can take the Buick word for anything we say, but we don't ask you to. We want you to make us prove it.

The Buick Overhead Valve Motor is guaranteed to develop more power and to give more mileage per gallon of gasoline than any other motor of its size, either American or Foreign make.

Society's Chosen Car

The Rauch & Lang Worm Drive

In America, the acknowledged chosen Electric of Society is the Rauch & Lang.

Ownership of this car carries with it more than the joy of possession of a quality car. It denotes an appreciation of the ultra refinement which characterizes this as the car of the most discriminating.

Added to the usual Rauch & Lang features of luxurious appointments and quiet refinement of every part, this year's car embodies the new Straight Type, Top Mounted, Worm Drive.

The Rauch & Lang was the first electric in all America to employ this type of worm—a revolution in the method of propulsion. Others are emulating this successful application of the worm principle to electric cars. But the leadership belongs to Rauch & Lang.

It means a simpler car, greater economy of power, longer life, no adjustments, greater all-round utility and manifest silence. Hundreds

have bought and have learned this new efficiency. Phone for a demonstration.

BARTRAM ELECTRIC GARAGE

TEL. WEST 458

1204-8 NEW HAMPSHIRE AVENUE (AT M ST.)

TEL. WEST 458

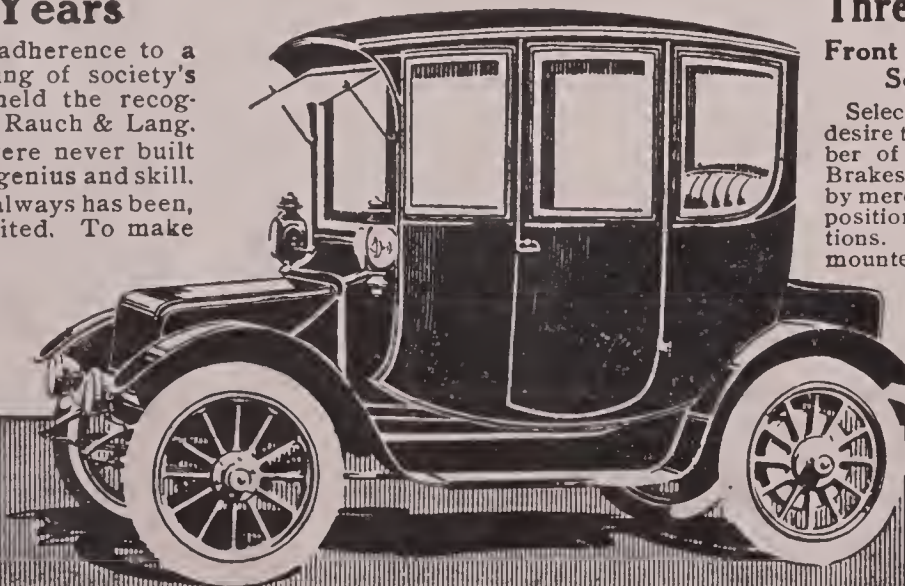

THE LARGEST AND BEST EQUIPPED EXCLUSIVELY ELECTRIC GARAGE IN WASHINGTON.

For Sixty Years

Sixty years of loyal adherence to a high ideal in the building of society's vehicles has won and held the recognized leadership of the Rauch & Lang.

Coaches of royalty were never built with more consummate genius and skill.

Rauch & Lang output always has been, and always will be limited. To make just so many cars, and make each a masterpiece, will always mean a demand that far exceeds the supply.

Three Types of Control

Front Control Rear Control
Selective Dual Control

Select the position from which you desire to drive according to the number of passengers. Controls and Brakes are automatically interlocked by merely turning front seat to natural position required by driving conditions. These features and the top mounted worm drive are exclusive to Rauch & Lang Cars and as well as the design of the car and other details of construction, are fully covered by United States patents granted and pending. (154)

The Pierce-Arrow Car

In the Pierce-Arrow we are not trying to build a cheap car, nor a middle-priced car, nor yet a high-priced car. We are trying to build a *completely efficient car.*

We believe that the Pierce-Arrow is the most efficient, the most durable, the most comfortable, convenient, and beautiful pleasure car in the world.
